SPRING NEWS 2014

Following a very wet winter we are all bursting to get out into the garden. Awakening with the freshness of spring, a new season, new chapter and new opportunities come to mind. With the days drawing out and lighter evenings, green shoots are emerging and the spring colours of snowdrops are being overtaken with hellebores, primroses and daffodils. There is much clearing and cutting back to be done to wake our gardens up for spring! Whilst out in the garden why not ponder a new planter, seating or feature to enhance and brighten your space.

During the winter we have been in search of new, quality and interesting pieces. Despite keen competition for the fine garden items, we have managed to acquire a good array of statuary, sundials, seating and planters. Jardinique is at the forefront of all that is structurally good in the garden and we continue **“in search of the unique”** on your behalf.

We much look forward to seeing you and thank you for your continued support. As always we are here to assist and welcome your requests for advice and feedback. Please keep an eye on our changing stock and opening times at www.jardinique.co.uk.
